the Circulation of the Bulletin.

The Bulletin has the largest circulation of any paper, in Eastern Connecticut, and from three to four imes larger than that of any in Norwich. It is delivered to over 2,000 of the 4,053 houses in Norwich, and read b; ninety-three per cent. of the people. In Windham it is delivered to over 900 houses n Putnam and Danielson to over 1,100, and in all of these places is considered the local daily.

Eastern Connecticut has fortynine towns, one hundred and sixtyfive post office districts and fortyone rural free delivery routes. The Bulletin is sold in every town and on all of the R. F. D.

routes in Eastern Connecticut.

WHERE WE ARE WEAK.

While the nation goes to tremendous expense to meet its enemies upon the seas it does not in the interests of the republic fight ignorance, shiftlessness and orime as it should. One these ten-million-dollar Dreadnaughts represents a sum of money that would supply two permanent trade schools or churches or Young Men's Christian Association buildings at \$100,000 each to every state and territory, the District of Columbia, Alaska, the Philippines and Porto Rico; these would create others and send forth citizens equipped to add enormously to the wealth and honor of the sountry; and it equals the cost of all the grounds and buildings of Harvard and Yale and Brown universities and of Amherst, Bowdoin, Williams and Dartmouth colleges, the accumulations be some instances of two hundred and fifty years of educational enterprise. says Lucia Ames Mead in The World Today. Preparedness to hold in check pur Christian neighbors comes high. The nations distrust one another, and tax themselves outrageously to keep their evil propensities in check.

THE RISE OF A LABORER. There are not many countries on earth in which a laborer in a few

years may grow into public service ind statesmanship. America still has a few boys educating themselves as Lincoln did and they are doing it just North Attieboro, Mass., has one. is thoroughly. This story comes from

A young man scarcely over 35 came to the lows legislature this year from s town in an old Dutch settlement in the northern part of that state. Five years ago that young man was a laborer on his father's farm. Today he is a successful practicing lawyer, with one of the biggest practices in that section. His father was an immigrant

to this country from Holland, and un-

til five years ago this boy tilled the acres on his father's farm. But he conserved his time and imin the old farm kitchen. He studied law through a correspondence course. During the summers he couldn't study the course of three or four years he apt to so quickly recognize its own had mastered the intricacies of the duties. laws of contracts, and torts, and personal relations, and all the other New that baseball is revived the of-branches. He passed, with his self- tice boys may be expected to have nations ever turned in to an Iowa natural.

He was rather raw when he started him now when he is addressing the do its duty. courts or the people, for he has overcome every obstacle, and he is popularly talked of as a candidate for con-

green two years hence. What boys have done boys can do. The proper use of spare time, loyalty to a purpose and persistence spells success for any boy who feels within himself a worthy ambition.

ANYTHING TO BEAT THE BUR-

GLARS.

The professional burgiar has to be a smart man for a dullard could not meet and overcome the inventions which are expressly gotten up to foil him. There is the timelock and the chilled-steel safes protected by superheated steam; and now he is confront. ed by the phonographic safe to be produced by a Denver man to make the opening of the safe possible only to one man. In place of the ordinary knob, the mouthplece of a telephone transmitter is used. Attached to its diapraghm is a delicate needle, its end resting in a groove of a sound record made on a phonograph cylinder. The phonograph cylinder is part of the mechanism of the lock, the record being the countersign spoken by a cer-tain voice. When this countersign is spoken into the safe by the same man the vibration of the needle coincid with the record on the cylinder and a continuous electrical contact opens the safe door. No other voice will do it and should he be detained or fall dead, anyone, for the vibration of a man's think that It is defenseless. They voles cannot be duplicated. This last have never argued the subject with a invention not only folls the burglars. Pullman car conductor. but is very likely on occusion to tle

the public highways than almost any of her sisters. In planning to spend \$4,000,000 on them, it is provided that the highway commission shall keep all state highways reasonably free of brush and otherwise in good condition, plant shade trees if practicable, and establish and maintain watering troughs. A state that makes herself attractive adds materially to her assets.—Providence Journal.

"Depend upon it, the best antiseptic for decay is an active interest in human affairs. Those live longest who live most." This counsels us not to get narrow or to court leisure, but to use our minds for the good of others—to be more conscious of others or shortcomings. Mind works most for us when least conscious of our trials or our afficiency. ancement of the community in which we live, or the race which we repre-tent. Narrowing down is weakness-proadening out is strength. It is up to us to do and to keep doing. This to us to do and to keep doing. This is what forms the tide of life and gives it a powerful flow. To do otherwise is to stagnate and go to pieces.

If I had the credentials I should join the Society of the Descendants of the Founders of Norwich, for they emblazoned the name of Norwich upon this beautiful site 250 years ago and placed Norwich on the map and their descendants have made it more and more celebrated for two and a half centuries. The moon that has looked down upon these bills more years than the pyramids of Egypt represent may smile at our glorying over so short a space of time, and well it may, for these hills were green and wooded and these rivers shimmering in the sun far hack of the time when the Star of Bethlehem appeared to the shepherds who were watching their flocks on the plains of Chaldes. We have made but a little notch on the yardatick of time yet that is greatly to the credit of the founders of "the Rose of New England."

The world is full of proverbs and they just represent in a way the com-pressed experiences of the human race The collected proverbs might well be called the flowers of human experience. But do you know that Sancho Panza, the quaint squire of Cervantes. heir merit or their truth. All nations their merit or their truth. All nations have their proverbs and centuries before it was written that "one swallow does not make a summer" the West Africans had learned that "one tree does not make a forest." Our collected proverbs represent the wisdom of all nations learned through the experi-

"Ever had the moving picture fever, old man" asked one friend of another recently. "Oh, yes, I've been cured of the country to commend its climate to chronic invalids and consumptives as a cure for their ills. They proclaim so that the nation can hear that "this climate does not raise the healthy mind could imagine or no huthat "this climate does not raise the dead and rarely cures consumptives!"

A formal protest is made through the charity conference committee of Los Angeles, composed of the presidents and secretaries of all its organized

Since the state of the presidents and secretaries of all its organized secretaries of all its organized. Since that night moving pictures have not appealed to me." He is not alone, Murder, robbery, arson, kidnapping and drunkenness are poor entertainment

The fad in flowers this year will run to the old-fashioned good keepers and the marigoids our mothers used to grow, those great lemon-yellow and old-gold Africans are going to be the table ornaments because of their fine keeping qualities. Then the National Council of Horticulture is recommending to amateurs the cultivation of (Torentia fourniori found in any of the catalogues) the wishbone flower a catalogues) the wishbone flower the catalogues) the wishbone flower a dainty white and blue annual, which grows readily in any sunny spot. Those who like to keep in step with fashion in border flowers, those who realize the decorative value of salvia will not forget this bush of flame which gleams from July until frost.

A borrowing neighbor is not so comoftener forgets to return things than to make restitution. This is not exactly theft, but it comes so close to it that people imposed upon do not hesitate to call it that; but it is a mighty demeaning and provoking habit. Sometimes it is the outgrowth of sheer thoughtlessness. I once heard sheer thoughtlessness. I once heard of a case that was completely cured in one lesson, and it was one of the cases where little things were never returned. The lender called on the borrower and got something and right after dinner returned it with many thanks and assurances that she was so sorry to have troubled her and that so sorry to have troubled her, and that borrower went out of the business because she was made conscious of the fact that she was a daily annoyance

earth, and cheap, inconsequential talk at that. There is no one who can keep a secret like yourself, and remember "a secret is like an umbrella, once out of your hand it belongs to tother fellor." Most of the affairs of life belong to us and there is no reason why uld give anyone a mortgage upon them,

"Revenge is sweet" is one of the ly-g old proverbs which would never ave been kept alive until this time men been wise. Revenge isn't even satisfactory. Fil tell you a trolley billiv or a myth. He may turn up any car case where a regular patron on an early morning train who had it in for the conductor gave him a \$20 bill for a nickel fare. The conductor stuffed the he would in your place.

And the last and chief source of fresh courage for the "same old job" is the courselestor of being and the real state of the same old job" is the consolestor of being a sold the real state.

When a fresh and energetic politi-an awakes to find that he has been cyclopedia. The ten best books would alling a dead wire it affects him al-go upon an Ellot five-foot shelf-it is what is in the books but what is sted by the mind that counts. TARIFF TALK the rest what to do about it and the supreme court passes a law making everything cost more for a while until

"I see they're planning to raise the | message teffing all the senators and all price of coffee," said the conductor when the car reached the end of the run and the motorman had fished out the two lunch pails from beneath the "Who are?" demanded the motor-

What's the idea?"

The conductor coughed and peered into the depths of his own iunch pail while he tried to arrange his ideas on the tariff.

"Well, it's simple enough," he said. "They need the money down in Washington to run the government and pay off the help and all that and it's got to come from somewhere, That's what they call the tariff. We've got to settle for it one way or another, and this coffee business is one way."

"They couldn't run very much government on all they get off coffee," commented the motorman, taking a drink of his own coffee appreciatively. "How did they get along in Washington all this time without this extra money?"

This was somewhat of a facer for the conductor and he frowned portenteusly at his sandwich before attempting a reply.

"It's setting to cost more to run."

"It's setting to cost more to run."

"It's a setting to cost more to run."

"They do get some of it that way."

admitted the conductor. "but prices have gone up so much that they need more money I suppose they might have put 2-cent stamps up to 3 cents put as a easy as not, but that wouldn't help much. Anyway we've got to have tariff to have prosperity. I help much. Anyway we've got to have tariff to have prosperity. I help much. Anyway we've got to have tariff to have prosperity. I help much. Anyway we've got to have tariff to have prosperity. I help much. Anyway we've got to have tariff to have prosperity. I help much. Anyway we've got to have tariff to have prosperity. I help much anyway we've got to have tariff to have prosperity. I help much anyway we've got to have tariff to have prosperity. I help much anyway we've got to have tariff to have prosperity. I help much anyway we've got to have tariff to have prosperity. I help much anyway we've got to have tariff to have prosperity. I help much anyway we've got to have tariff to have prosperity. I help much anyway we've got to have tariff to have prosperity.

"It's getting to cost more to run
this country every year." he said. "You

"That's sebout the size of it." to be paid for right along. It costs a lot of money."

"That's about the gize of it."

"Well, it's a funny thing," said the motorman lighting his pipe.

"Well, the president sends 'em a cago News."—Chi-

SUNDAY MORNING TALK SOMETHING

"SAME OLD JOB."

Over the telephone the other day I asked a man whom I had not seen for months what ie was doing. "Same old job," was the reply, and the tone as well as the language indicated what he thought of it. It was not the note of disavart and open reput but rather disgust and open revolt, but rather that of "grin and bear it" of patient acquiescence in the inevitable, together with the abandonment of hope that

lings would ever better.
It seemed as if the voices of multitudes were speaking over the wire. I could hear the unvoiced complaint of the man who opens and shuts a gate all day long, the man who hands out tickets through a window, the man who delivers milk at the back door in the gray of the morning, the woman who stitches away on a garment, 'he wonan who washes dishes, who mends the children's garments, the woman who attends to the freiful and demanding babies. In fact, the whole multitude of persons condemned to a single kind of task, and that in itself terribly monotonous spake in that one man's retonous, spoke in that one man's response over the wire, "Same old job."

Modern life presents no greater single personal problem than that of secur-ing an honest and cheerful measure of service on the part of the multitudes to whom the progress and differentia-tion of industry has assigned relatively small and menial tasks of a treadmili-character. The same personal probharacter. The same personal probem confronts even those who have higher tasks and who do not have to delve and grind in the midst of material things; but who, nevertheless, do not escape that sense of weariners because of unyielding obstacles, cramping limitations, and only a moderate degree of success when their ambition is spur-ring them to larger achievements. And so it becomes a very vital question to all of us, how can we face the "same old job" morning by morning with new courage, initiative and hope? That may seem altogether impossible, if we have sat in the same chair or stood behind the same counter for 10, 15 or 20 years; but it is within the field of the possible, provided one has determination enough, for as Susan Coolidge sings:

WHEN you want to put your business before the public, there is no medium better than torough the advertising columns of The Belletin. Coolidge sings:

"Every day is a new beginning; Every morning is a world made new.

cause she was made conscious of the fact that she was a daily annoyance without any manners to speak of.

We all talk too much. That is what the parrot said after being denuded of its plumage, and that is what we all have to acknowledge just as soon as we have been careless of speech and reaped the consequences. Those who like to know things cultivate inquisitive habits and they find out things by asking questions, which, by the way, a discrect person usually answers evasively, but other persons answer frequently to their sorrow. Talk makes more trouble than anything else on earth, and cheap, inconsequential talk

There is incentive, too, in trying to imagine how some other man would d the same thing. Suppose President Taft could spare a day from the White house and the oversight of this nation to do your job, how would he approach it? What new ways and improved methods would he employ? What kind of a spirit would he show? What would be his attitude to his employers and the concern as a whole? How would he deal with the problem? This "other man" is not an impossi-

about his clothes, and knowing his pas-songer was going to the terminus, kept right about his business. The passen-ger got angry and sassy and worked himself into a farore. When the end of the line was reached the conductor politicly informed him that if he would of the line was reached the conductor politicly informed him that if he would got follow him to the office he would get the \$18.95 that belonged to him, old Sputterer went right along and it looked as if he learned a lesson that morning that would be of value to him as long as he lived.

It is a fact that great men can get along with a very few books. Dr. Eliot who has just retired from the presidency of Harvard, has said that he by the sa fact that great men can get logian. Nathaniel Businell, once preached a sermon entitled. "Every Man's Life a Plan of God." To fulfill that plan is better than to get riches the property of Harvard, has said that he tall be satisfied with the books which possible placed upon a five-foot shelf; but Horace Greeley considered four sake sufficient for him—the Bible, lakesnears a distinguishment we obtain our greatest bappiness.

THE PARSON.

Work for Him to Do. Anyhow. President Eliot ought not to go to London as ambassador until after he has made out that list of books for the much-talked-of five-foot library.—Boston Globe.

Hope for Married Men. Let the married men take heart. A Georgia woman of intellect has discovered that 'husbands are human be-

ings."-Cincinnati Times-Star. Life's Necessities, Life's necessities are usually hard to even when there is no tariff .-Washington Post.

The Dutch will celebrate the centenary of the re-establishment of na-tional independence by a world's fair at The Hague in 1913.

the expenses are all paid up. They call it tariff and that's what the two big parties are always fighting about. The democrats don't want any tariff and the republicans want a lot of it. But it isn't only coffee—stockings and perfumery are going up too."

That gin't going to warry many the contraction of the contrac Many Norwich people take their lves in their hands by neglecting the kidneys when they know these organs fumery are going up, too."

The motorman paused with a doughes nut half way to his mouth.

"Oh, that's it?" he said, rather bitterly, "Fine! That's what we get
for voting for Taft and prosperity.

What's the idea?"

The conductor coughed and peered
into the depths of his own lunch pail
while he tried to arrange his ideas
on the tariff.

"Well, it's simple aparet."

Mrs. Amy M. Wilcox, living at 38 McKinley Avenue, Norwich, Conn., says: "Doan's Kidney Pills are entitled to my strongest recommendation. Off and on for some time I was annoyed to quite an extent by a duil, heavy aching across my loins and kidneys. Those who have had a similar experience will realize how much must experience will realize how much mus ery and inconvenience this complaint will cause. A friend, knowing how was troubled, recommended Doan's was troubled, recommended Doan's Kidney Pills, and I procured them from N. D. Sevin & Son's drug store. They proved effective from the start, and it was only a short time before I was completely relieved."

DR. King's Restoration Method

What It Does for Toolhiess People

WORTH KNOWING

And Knowing Is Believing

You Can't Have Dyspepsia and

Take Kodol, Because It Di-

gests All the Food You Eat

Chronic dyspesia is very hard to cure.

Kodel will effectually assist in curing,

and it is far more satisfactory to pre-

vent this disease. Kodol prevents dys-

vent this disease. Rodol prevents dyspepsia, by making the digestion good, and keeping it good. It is worth something to know this, if you have indigestion, and likely to have dyspepsia. Kodol prevents dyspepsia, and makes the digestion good, by digesting all the food you eat. A tablespoonful of Kodol will digest 21-4 pounds of food. That is, a tablespoonful of Kodol will digest that quantity of any kind of food you may eat. Not only a single class of

may eat. Not only a single class of food—but all kinds of food, in any combination. You can't have dyspepsia, if you take Kodol now and then—because it is not possible for you to have dyspepsia, as long as your food digests properly—and Kodol digests the food

you eat. Our guarantee-Get a dollar bottle of Kodol. If you are not bene-

your money. Don't hesitate; any drug-gist will sell you Kodol on these terms. The dollar bottle contains 21-2 times as much as the 50c bottle. Kodol is prepared in the laboratories of E. C. DeWitt & Co., Chicago.

THOMAS JEFFERSON KING D. D. S.,

Originator of Dr. King's Restor-ation Method for the natural restoration of teeth—originator of the King Safe System of Painless Dentistry and Inventor of the "Natural Gum" Set of Teeth Fig. Etc. All rights re-Teeth. Etc., Etc. All rights re-

By means of this wonderful method we are able to give back to a patient the full set of teeth he or she started in with in the beginning. All we require is two or more teeth in each jaw to work from, and we shall not resort to plates or ordinary bridgework in the process of the work. Your mouth will be free from in-

cumbrances. Before we accomplish this result we put the gums and the natural teeth in a healthy condition, tightening the teeth which may be loose and ouring pyorrhea if the patient is afflicted with that dreadful dis-

All of the teeth we supply are practical teeth; each set in its own socket following nature's plan, so that the strain is equally divided. One is able to bite on these teeth and use them in exactly the same manner as he would his natural teeth. They match nature's teeth so closely as to deceive experts. They are beautiful to look at and a source of constant delight to the one wh wears them.

APAINLESS PROCESS

An impression has gone forth that there is some surgical operation connected with this method of restoring missing teeth. Some people have written in to know if we bore down into the bone and put the teeth in on pags! Others, have an idea we set the new teeth into the sockets where the

natural teeth were originally. It is quite natural that some unthinking people would ask such questions, and in order that they may be fully answered we will state that there is no boring, no cutting, no implantation about this method, nothing about the work that is painful while it is being done or afterward. Patients leave the office with these teeth in place and at once begin

chewing meat, eating candy, toast, or anything else with the same comfort they would enjoy if every tooth in their head had grown there. If we couldn't promise this and make good on the promise, the Restoration Method would not be a success. It would be no better than

ordinary bridgework or partial plates. WE ARE GENERAL PRACTITIONERS

All Forms of Dentistry Treated by Experts. While the Restoration Method is our great specialty we are general dental practitioners as well. From the simplest filling to the most intricate piece of porcelain work, our experts are at the service of the

Naturally we would do such work well, much better than it could be done in a one-man office, for the operators employed here are all men of the very highest skill. They need to be to do the Restoration work. Bunglers would not be tolerated in our office for a day, neither would dental students. We demand the fluished craftsman, both at the operating chair and in the laboratory.
